Contents	<p>The Occupational Safety and Health Administration is an agency of the United States Department of Labour. 29 CFR 1910.134</p> <p>This course will help you to understand the importance of proper Respiratory Protective Equipment (RPE) use in hazardous workplace environments. You will learn about legislation, maintenance, the fit of various types of RPE, and be able to select adequate and suitable RPE for a given task or situation. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.</p>
Exam	The assessment is taken during the course and is within the expected duration.
