Contents

The course is available in the following languages: US English; Turkish; Spanish.

During this course, you will learn about the goals and purpose of fall protection, including different types of falls, job safety analysis and the hierarchy of hazard controls.

Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

Exam The assessment is taken during the course and is within the expected duration.
