MEM - Major Emergency Management

Duration	4 days
Target group	Individuals who are either designated as being in charge of, are members of, or provide support to an emergency management team in an emergency.
Prerequisites	None
Objective	MEM-IR Training provides personnel with formal training in command, control, communications and stress-related factors in the management of major emergencies. This program also provides initial emergency management training for personnel who are undertaking a training and competence program to progress to the role of an emergency response manager.
Contents	Course topics discussed in this course are: (1) Review, manage and assess the information available in an emergency situation in a timely manner. (2) Establish priorities and take effective action. (3) Implement predetermined emergency plans and procedures in the context of the current emergency. (4) Efficiently communicate information and instructions. (5) Communicate effectively with all appropriate external agencies in accordance with local arrangements, guidance documents and legislation. (6) Monitor and control resources. (7) Evaluate progress and communicate changes in plans and priorities. (8) Effectively delegate authority and manage individuals and teams. (9) Recognize and deal with stress in themselves and others.
Exam	Evaluation of delegates will be by continuous observation of their performance during their tenure(s) as EM, each based around 2 different types of major incidents chosen from the list below: Type A - a major emergency that is readily controllable if managed appropriately. Type B - a major emergency which could escalate if not controlled. Type C - a major emergency that the EM is unable to control leading to a full evacuation of the facility.
