IADC WellSharp Supervisor Level Well Control (Surface)

| | |
|----------------------|---|
| Duration | 4 Days |
| Target group | The IADC WellSharp “Well Control for Drilling Operations – for Supervisors” course has been designed for toolpushers, drilling engineers, drilling supervisors, superintendents, drilling foremen, company men and others with a requirement to hold an accredited well control certificate at Supervisory level. The training is role-specific and is focused on well kill procedures. |
| Prerequisites | Prior IADC or IWCF certification at Driller or Supervisor Level is required. The training is role-specific so previous experience in a supervisory role during drilling operations is assumed. Please contact us to discuss candidate suitability if you have any doubts or queries. |
| Objective | The IADC WellSharp Supervisor Level Well Control course is essential training for those working in wellsite supervisory roles and for office-based personnel that are primarily involved in the operational decision-making process and/or well design. The course aims to build on the Driller Level course content (including kick detection and shut-in) and focus on more complex aspects of well control and well kill methodology. |
| Contents | <p>The course is delivered over 4 days through presentation of a series of interactive lectures supported by videos and animations, supplemented by a classroom workbook and further self-study exercises and practical work on a drilling simulator.</p> <p>The following topics will be covered during this course:</p> <ul style="list-style-type: none"> > Drilling, Workover, Completion Plan-Awareness > Well Control Drills > Well Control Concepts > Shut In Procedures & Verification > Mud & Pit Management > Post Shut In Monitoring & Activities > Pre-Recorded Data > Risk Management > Kick Prevention during Drilling, Casing & Cementing Operations > Well Control Methods > Barriers > Equipment > Shallow Gas, Water Flows & Tophole Drilling > Extract of Subsea Elements > Abnormal Pressure Warning Signs > Kick Detection > Hands-on simulation exercises will be conducted |
| Exam | Successful completion of the course and a minimum score of 75% in the written assessment and 70% in the practical skills assessment will result in IADC WellSharp Supervisor Level certification which is valid for two years. |
