

<b>Course code</b>	IBSRDL621
<b>Course name</b>	Job Safety Analysis (JSA) (OSHA) - Digital Learning
<b>Duration</b>	20 Minutes
<b>Target group</b>	Oil & Gas Industry
<b>Prerequisites</b>	No prerequisites are required to sit this course.
<b>Objective</b>	Understand Job Safety Analysis Awareness
<b>Contents</b>	<p>The Occupational Safety and Health Administration is an agency of the United States Department of Labour.</p> <p>The OSH Act covers most private sector employers and their workers, in addition to some public sector employers and workers in the 50 states and certain territories and jurisdictions under federal authority. Those jurisdictions include the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, Northern Mariana Islands, Wake Island, Johnston Island, and the Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act.</p> <p>Job Safety Analysis (JSA) is a structured process that focuses on the relationship between the worker, the task, the tools, and the work environment. The JSA then introduces steps to eliminate or reduce hazards to an acceptable risk level. When a JSA is performed correctly, it can be an effective accident prevention tool that increases workplace safety. In accordance with ANSI Z10-2012</p>
<b>Exam</b>	The assessment is taken during the course and is within the expected duration.
