- LO5: Understand your responsibilities for controlling dropped objects

Contents

This course is available in the following languages: US English; Turkish; Spanish.

The aim of this course is to inform you about where dropped objects may occur and the associated risks. You will find out what your employer must do to control risk and offered guidance on the steps you can take, too. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

Exam The assessment is taken during the course and is within the expected duration.
