

OBS0062

Combined Slinger and Rigger Training

| | |
|----------------------|---|
| Duration | 5 days |
| Target group | Delegates attending this training and assessment programme will be given a series of explanations and demonstrations which will identify what they are expected to know and do when involved with either slinging and lifting or rigging operations. This will be followed by practical exercises which will allow delegates to demonstrate their skills and be individually assessed by an experienced assessor. |
