29 CFR 1926.1204

Prerequisites No prerequisites are required to sit this course.

LO1: Describe the purpose of a permit to work system LO2: Explain the purpose of Job Safety Analysis **Objective**

LO3: Identify the elements of a permit

LO4: Describe procedures that need to be followed to fulfil a permit to

work

LO5: Identify common types of permit

This course is available in the following languages: US English; Spanish; **Contents**

The aim of this course is to inform you about the purpose of permit to work systems and a Job Safety Analysis. You will be able to identify common permits and elements of a permit, together with being able to

describe permit to work procedures.
Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe

acts/deviations from procedures.

The assessment is taken during the course and is within the expected Exam

duration.
