

OBSBE003

Further Offshore Emergency Training (OPITO FOET)

Duration	1 day
Target group	<p>This training is for personnel seeking OPITO approval.</p> <p>This programme is designed to meet the further offshore safety and emergency response training and assessment requirements for personnel working in the offshore oil and gas industry.</p>
Prerequisites	<p>The FOET is open to persons who have a valid OPITO approved BOSIET or TBOSIET, FOET or TFOET certificate.</p> <p>A reasonable command of the English language is required.</p>
Objective	<p>The aim of the FOET is to provide the delegates with the opportunity to practise and demonstrate emergency response skills which are not possible to practise during drills, exercises and emergency training offshore.</p> <p>The objective of the FOET is that delegates will be able to:</p> <ul style="list-style-type: none">- Demonstrate, in a simulated environment, that they can use the safety equipment and follow procedures in preparing for and during helicopter emergencies with particular focus on escaping from a helicopter following ditching.- Demonstrate that they can use basic firefighting equipment effectively and use self-rescue techniques in low visibility and completely obscured visibility situations e.g. smoke filled areas.- Demonstrate that they can perform basic First Aid.
Contents	<p>The modules covered within the OPITO FOET are:</p> <ul style="list-style-type: none">- Helicopter Safety and Escape- Firefighting and Self Rescue- Emergency First Aid
Exam	<p>Delegates will be assessed against the learning outcomes specified in the OPITO FOET standard using direct observation and oral and/or written questions as appropriate.</p>
