

OFl226

Basic Member Fire Fighting and Rescue Team Offshore (NOGEPA 2.6A)

Duration	4 days
-----------------	--------

Target group	Persons who will be part of the Emergency Response Team onboard a mining installation, responsible for fire fighting and rescue.
---------------------	--

Prerequisites	Valid medical certificate. The delegate shall be medically fit for the use of a breathing apparatus registered in the Personal Safety Logbook.
----------------------	---

Objective	<p>In the 4-day training Member Firefighting/Rescue team delegates receive both theoretical and practical training in the role of the team during firefighting and rescue operations. In accordance with the standard of NOGEPA they practice their skills in reacting to alarms, principles and procedures, working with breathing and firefighting equipment, rescue of victims, combat of indoor, plant and helicopter fires, assistance at incidents and maintaining effective communication.</p> <p>By participating in this training the delegates will increase their knowledge and improve their skills in relation to fire fighting and rescue. They will learn to work as a team and use fire fighting equipment and techniques applicable for mining installations.</p>
------------------	--
