RBS2511

GWO Advanced Rescue Training (HSIBR+NTBR) Refresher

Duration	2 days
Target group	Personnel who will be working in the wind industry or related fields, and will have their duties in a wind turbine environment. Personnel that may need or is selected by their employer to perform advanced rescue or lead an advanced rescue operation, where training according to one or more modules of the GWO Advanced Rescue Training may mitigate the identified risks.
Prerequisites	Participants must hold a valid GWO ART (Refresher); GWO BST Working at Heights; GWO BST First Aid and GWO BST Manual Handling certificates to participate in GWO ART Refresher. All personnel participating in Advanced Rescue Training shall be medically fit and capable of fully participating. Furthermore, Delegates shall have created a personal Delegate profile in WINDA and provide their own WINDA ID prior to completing the ART training.
Objective	The ART modules shall enable delegates to perform entry-type injured person rescue operations, in a WTG, using industry standard rescue equipment, rescue methods and techniques, exceeding those of GWO Working at Heights
Contents	GWO Advanced Rescue Training (HSIBR+NTBR) Refresher
Exam	Delegates will be assessed by means of direct observation and supplementary oral questions where appropriate (formative evaluation).
