## First Aid (GWO)

---

**Duration** 2 days

---

**Target group** The Basic Safety Training (BST) is designed to provide personnel with the basic skills that will enable them to work in a safe manner in the wind industry and to meet emergency response training requirements for personnel new to the global wind industry. It is designed to accommodate personnel working both onshore and offshore.

Target group is personnel working in the wind industry or related fields needing to obtain their GWO BST First Aid module.

---

**Prerequisites** No training prerequisite required.

Delegates participating in the Basic Safety Training must be demonstrably medically fit and capable of fully participating.

---

**Objective** In case of casualties First Aid knowledge of proper procedures, use of available equipment and normal functions of the human body and symptoms of illness or injury is essential. In the First Aid module as part of the Basic Safety Training for wind industry RelyOnNutec will focus on the limited space and access and exit possibilities characteristic for wind turbines. Proper practical exercises are a major part of this course.

The aim of this Module is to administer safe and effective First Aid in the wind turbine industry / WTG environment in accordance with GWO First Aid training through theoretical and practical training.

WINDA is the global database which is used by the Global Wind Organisation (GWO). WINDA will make verification of training possible for training providers and employers. Delegates will have ownership of their own training records in WINDA.

Participants will no longer be issued with paper certificates. RelyOnNutec will upload a digital record of the GWO certificate in WINDA. If you are participating in a GWO training course you must register for a delegate profile in WINDA. After registration you will receive a WINDA ID. You need this WINDA ID to book the training. Without a WINDA ID we are not able to produce certificates. To register for a delegate or organisation profile, please visit: [winda.globalwindsafety.org](http://winda.globalwindsafety.org).

---

**Contents** All learning outcomes which are stated in the GWO BST Module First Aid

To include:

- Global and national legislation
- Anatomy
- Management of an incident
- Life saving first aid (ABC)
- Use of AED
- Scenario based practical exercises

---

**Exam** The delegates will be assessed against the learning outcomes.

---

The course assessment is carried out by the instructor being satisfied of individual competencies through questioning, observation and the use of the control measure form.
