

OSE820

Basic Offshore Safety Induction & Emergency Training (including HUET) w/ CA-EBS

Duration	3 days
Target group	Offshore
Prerequisites	<p>Training and/or assessment activities contained within this Standard may include physically demanding and potentially stressful elements. All personnel who participate in such activities must be physically and mentally capable of participating fully.</p> <p>Delegates participating in the BOSIET, FOET, HUET with CA-EBS or the OPITO Escape Chute course must possess a valid, unexpired offshore medical certificate confirming the delegate's fitness for offshore work or present an employing company approved medical equivalent to an offshore medical certificate (reviewed and approved by RONC's Center Manager). If a medical is not provided, an approved medical screening form will suffice.</p> <p>*All delegates will be required to complete a medical screen form the first day of training.</p> <p>ITEMS REQUIRED FOR TRAINING:</p> <ul style="list-style-type: none"> - When checking in for training, please have your GOVERNMENT ISSUED PHOTO ID with you (ie: Passport or Drivers Licences, etc.) - Shorts, T-Shirt, and Socks for pool exercises - Towels, shower facilities on site - Lock for locker <p>PLEASE NOTE: Certificates CANNOT be issued unless valid Government issued ID has been presented on Day 1 of training for all RONC courses, including OPITO approved training.</p> <p>Please Note that the course is of a stressful and/or physical nature.</p>
Objective	<p>The objectives of the BOSIET (with CA-EBS) Training are that delegates will be able to:</p> <ul style="list-style-type: none"> -Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks -Identify key offshore related safety regulations and explain the basic safety management concepts -Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching -Demonstrate sea survival and first aid techniques -Demonstrate that they can effectively use basic firefighting equipment, and practice self-rescue techniques in low visibility situations, to include smoke filled areas.

Contents

The aim of the BOSIET (with CA-EBS) is to introduce delegates to the specific safety issues and regimes relevant to offshore installations, and to equip them with the basic emergency response knowledge and skills for travelling to and from offshore installations by helicopter.
