

## IADC Online Rig Pass

**Duration** 500 Minutes

**Target group** Personnel who require awareness level training for working in Oil and Gas operations.

**Prerequisites** No prerequisites are required to sit this course.

**Objective**

The course is available in the following languages: US English; Spanish  
 The IADC's RigPass® program is an accreditation system offering a standardized safety orientation for new employees, preparing them for nearly any operating environment, whether onshore or offshore. This course not only meets, but exceeds the curriculum requirements for IADC RigPass®, matching the standards of the former SafeGulf and SafeLand programs, and including SEMS II training elements thus ensuring personnel are trained according to industry-defined safety and training benchmarks.

The primary goal of IADC RigPass certification is to provide new employees with essential knowledge of rig operations and safe work practices, ideally before they commence work. However, logistical challenges in the drilling industry may delay this training. Companies with internal programs are advised to implement policies to ensure their new hires complete the RigPass orientation at the earliest feasible opportunity.

This course covers topics ranging from General Safety to Marine Debris, over 18 modules. You are required to complete all modules before being issued with an IADC Certificate. Course duration disclaimer: This course is self-paced for the average person to complete in 8 hours. IADC requires a Picture ID and legal name for identification.

**Contents**

Chapter 1 GENERAL SAFETY  
 Chapter 2 PERSONAL PROTECTIVE EQUIPMENT (PPE)  
 Chapter 3 HAZARD COMMUNICATION AND MATERIALS HANDLING  
 Chapter 4 OCCUPATIONAL HEALTH  
 Chapter 5 SPECIALIZED WORK PROCEDURES  
 Chapter 6 FIRE SAFETY  
 Chapter 7 MATERIALS HANDLING  
 Chapter 8 HEALTH & FIRST AID  
 Chapter 9 RIG/PLATFORM ENVIRONMENT  
 Chapter 10 RESPONSE EMERGENCY  
 Chapter 11 WELLSITE ENVIRONMENTAL PROTECTION  
 Chapter 12 TRANSPORTATION  
 Chapter 13 WATER SAFETY  
 Chapter 14 MARINE DEBRIS  
 SEMS II:  
 LO1: Explain the governing bodies behind Safety And Environmental Management Systems (SEMS) and which businesses need to have one  
 LO2: Identify the General Management Program Principles  
 LO3: Explain safety and environmental information  
 LO4: Describe the purpose of hazards analysis  
 LO5: Explain the requirements for management of change and operating procedures  
 LO6: Identify the requirements for safe working practices and training under SEMs

---

LO7: Outline the importance of quality assurance and mechanical integrity and pre-start up reviews  
LO8: Describe the purpose of an Emergency Response and Control Plan and incident investigation  
LO9: Outline the steps of an audit program and importance of documentation and recordkeeping

---

**Exam**

The assessment is taken during the course and is within the expected duration.
