

## Noise awareness - OSHA Standards

---

**Duration** 30 minutes

---

**Target group** Oil & Gas Industry  
29 CFR 1910.95

---

**Prerequisites** No prerequisites are required to sit this course.

---

**Objective** LO1: Identify common noise hazards  
LO2: State the Noise at Work regulations  
LO3: Describe the human ear and the different noise exposure warning signs  
LO4: State the different recommended noise limits  
LO5: Identify the risks of noise exposure  
LO6: Describe the different noise control measures that can be used  
LO7: Describe the different types of hearing protection

---

**Contents** The course is available in the following languages: US English; Turkish; Spanish.  
The aim of this course is to provide you with information on the hazards associated with noise. During the course, we will look at the regulations associated with noise, the different noise levels, the human ear, hazards associated with noisy environments and how we can control this noise. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

---

**Exam** The assessment is taken during the course and is within the expected duration.
