Noise awareness - OSHA Standards

Duration	30 minutes
Target group	Oil & Gas Industry 29 CFR 1910.95
Prerequisites	No prerequisites are required to sit this course.
Objective	LO1: Identify common noise hazards LO2: State the Noise at Work regulations LO3: Describe the human ear and the different noise exposure warning signs LO4: State the different recommended noise limits LO5: Identify the risks of noise exposure LO6: Describe the different noise control measures that can be used LO7: Describe the different types of hearing protection
Contents	The course is available in the following languages: US English; Turkish; Mexican Spanish. The aim of this course is to provide you with information on the hazards associated with noise. During the course, we will look at the regulations associated with noise, the different noise levels, the human ear, hazards associated with noisy environments and how we can control this noise. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
Exam	The assessment is taken during the course and is within the expected duration.
