- LO12: Recall what data/findings from Task Risk Assessments should be recorded
- LO13: Describe the purpose of a Toolbox Talk
- LO14: Explain the importance of communication for the success of a Task Risk Assessment

---

**Contents**

The course is available in the following languages: US English; Turkish; Spanish.

The aim of this course is to provide you with an understanding of the TRA process, the need to identify all hazards associated with the work, what a TRA is, how and when it should be carried out, and the responsibilities of each person within the process.

Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

---

**Exam** The assessment is taken during the course and is within the expected duration.
