

OSPMY077

PUWER

Duration	Approx. 60 minutes
Target group	This course is designed for all employees in the Oil & Gas Industry who work with equipment and machinery.
Prerequisites	All delegates must be in possession of a valid medical certificate.
Objective	Produced in co-operation with Hunting Oil Field Services, this course covers the main aspects of the Provision and Use of Work Equipment Regulations (PUWER) 1998. The course features a range of interactive exercises to give delegates awareness of their responsibilities under these regulations. Successful completion of this course will also give them vital knowledge of how the legislation is structured, who it applies to, and why and when it is required.
Contents	<p>The scope and nature of the Provision and Use of Work Equipment Regulations 1998</p> <p>Understand the legislative framework of PUWER and other associated legislation</p> <p>Understand the general duties under PUWER</p> <p>The key elements of the Provision and Use of Work Equipment Regulations 1998</p>
