IWCF Level 4 Well Intervention Pressure Control

Duration	5 Days
Target group	<p>The Level 4 (Supervisor) Well Intervention Pressure Control training and certification is recommended for those working in roles such as Well Services Supervisor, Completion Supervisor/Service Leader, and others with a requirement to hold an IWCF certificate. To view the full list of recommended job titles, please refer to the IWCF website: www.iwcf.org/programmes</p> <p>Please note: IWCF training levels 2 to 4 are designed to be sequential and first-time candidates are expected to complete Level 2 before progressing to Level 3 or 4. However, the training levels are also designed to be role-specific and dependent on the candidate's work experience. For guidance and advice on which level of training you are eligible for, please get in touch.</p>
Prerequisites	<p>The candidate must be pre-registered with IWCF and able to provide his/her 6-digit IWCF Candidate Registration (CR) Number.</p> <p>Prior certification is not required but previous experience in a supervisor role during well services operations is assumed. Please contact us to discuss candidate suitability if you have any doubts or queries.</p>
Objective	<p>The aim of the IWCF Level 4 (Supervisor) Well Intervention Pressure Control course is to develop the candidate's knowledge and understanding of well intervention pressure control. The Level 4 course focuses on the duties and responsibilities of an individual working in a supervisory role. The course includes compulsory training and assessment in Completion Equipment and Completion Operations; with optional modules including Coiled Tubing Operations, Wireline Operations, and Snubbing Operations (at least one of the optional modules must be selected).</p>
Contents	<p>The course is delivered through presentation of a series of interactive lectures supported by videos and animations, supplemented by a classroom workbook and further self-study exercises. Where available, candidates are also introduced to simulated well intervention scenarios with the use of a DS20 portable drilling simulator. This adds a practical element to the course which helps to apply the theory and increase knowledge retention. The course is delivered over 4 or 5 days depending on the location and includes IWCF written assessments on the final day.</p>
Exam	<p>Up to 5 written assessments:</p> <ul style="list-style-type: none">- Completion Equipment- Completion Operations- Wireline Operations- Coiled Tubing Operations- Snubbing Operations <p>Candidates must select a minimum of 1 optional well intervention module from the 3 available to be assessed in. Optional modules are i) Coiled</p>

Tubing Operations, ii) Wireline Operations, and ii) Snubbing Operations. Please be advised that the selection cannot be changed once the assessment is completed. Successful completion of the course and a pass mark of 70% or above in all IWCF written assessments will result in IWCF Level 4 certification which is valid for two years.
