| Target group  | Oil & Gas Industry<br>29 CFR 1910.35-39                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Prerequisites | No prerequisites are required to sit this course.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Objective     | LO1: Explain the required elements of an emergency action plan<br>LO2: Identify basic and specific response procedures<br>LO3: Explain how to respond to specific emergencies<br>LO4: Describe evacuation and abandonment procedures<br>LO5: Identify the 7 Steps to Survival                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Contents      | The course is available in the following languages: US English; Turkish.<br>The aim of this course is to give you an awareness of emergency response<br>and evacuation processes and procedures. You will learn about the<br>different elements of an emergency action plan and how to respond to<br>specific emergencies. You will also be able to identify evacuation and<br>abandonment procedures and the '7 Steps of Survival'.<br>Employers should provide additional training when a new<br>hazard/procedure/condition or piece of equipment is introduced into the<br>workplace or "unscheduled" refresher training is recommended as<br>directed to address inadequacies in knowledge and to address unsafe<br>acts/deviations from procedures. |
| Exam          | The assessment is taken during the course and is within the expected duration.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
