Contents The course is available in the following languages: US English; Brazilian

Portuguese, Mexican Spanish

In this course, you will learn about first aid and bloodborne pathogens, including how they can be controlled, and you will be able to identify who is at risk, and how exposure and transmission occur.

Employers should provide additional training when a new

hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe

acts/deviations from procedures.

Exam The assessment is taken during the course and is within the expected

duration.
